RESURFACING _____

The Applicant is liable for any and all damages incurred in conjunction with the proposed scope of work whether it is within the public right-of-way or on private property. The applicant is responsible for the restoration of the roadway, curbs, driveways, sidewalks and grassed areas in Accordance with Township Codes.

The Applicant agrees to perform the work in an uninterrupted manner to ensure timely completion. Immediately upon completion of the approved work noted herein, the trench shall be backfilled and temporary paving placed consisting of 2" of hot mix. Trench backfill shall be 2A modified stone, compacted in four (4) inch lifts. Permanent paving shall be completed no sooner than 30 days nor no later than 60 days or as required by the Township Engineer. New Paving must consist of minimum of 6" of BCBC and 2" of Wearing Course, with one (1) foot cutback on both side of the trench (all edges should be tacked properly and all seems need to be seal per Penn Dot Requirements).

The Applicant is responsible for any and all Township Engineer's Fees incurred for the review and approval of the permit.

THE APPLICANT MUST CONTACT THE TOWNSHIP INSPECTOR AT LEAST 48 HOURS PRIOR TO THE START OF CONSTRUCTION AND PRIOR TO BACKFILLING THE TRENCH.
